

Vaiduryacats

Preagreement

Getting a kitten should always be a happy time and this agreement aims for everything to be clear so both breeder and new owner are satisfied and happy.

Getting a kitten from Vaiduryacats Cattery

When kittens are ready to be rehomed we make sure that they are:

- vaccinated for Flu and Enteritis
- microchipped
- litter trained
- free from worms
- free from fleas
- and importantly - healthy

We will also give you:

- vaccination booklet
- pedigree certificate
- a cat toy
- some food
- some cat litter

If it happens that kitten in the time for rehoming is not well we will keep the kitten until it is fully healthy - if kitten is not fully healthy within 30 days we will ask you if you willing to wait until it is fully healthy and if not - then we will refund your deposit.

If after putting a deposit you decide that you no longer willing to rehome the kitten - deposit is not refundable.

one of our kittens - Vaidurya Janardan

We will require the Kitten Kontract to be signed with full address and contact details - we do not share the data with anybody - however we need to provide your details in order to register kitten's microchip so it is on your name.

If you require an advice - we are always happy to help as we want to make sure that kitten will be well cared for. We also strongly recommend that you obtain an insurance for your kitten.

Lots of advice can be found on Internet:
<https://www.rspca.org.uk/adviceandwelfare/pets/cats>
<https://www.cats.org.uk/>

there are also lots of books on the subject of kitten and cat care available.

Thank You for getting a kitten from us.
